Group:

INDEX

Serial no.	Name of the Experiment	Date of performance	Date of submission	Remarks
1.	Determination of Normal Consistency of Cement Using Vicat's Apparatus.			
2.	Determination of Initial Setting Time of Cement Using Vicat's Apparatus.			
3.	Determination of Compressive Strength of Hydraulic Cement Mortars.			
4.	Determination of Soundness of Cement by Expansion of Cement Mortar Bars.			
5.	Determination of Fineness of Cement by Air Permeability Apparatus.			
6.	Determination of Compressive Strength of Concrete Using Cylindrical and Cube Specimens.			
7.	Testing and sampling of Bricks for Compressive Strength, Efflorescence and Absorption.			
8.	Sieve Analysis of Fine and Coarse Aggregate.			
9.	Determination of specific Gravity and Absorption of Fine and Coarse Aggregates.			
10.	Determination of Unit Weight & Voids in Fine and Coarse Aggregate.
